CONNEWARRAN MERINO STUD

ANNUAL ON-PROPERTY SALE

1pm, WEDNESDAY 16TH OCTOBER

www.connewarran.com.au

SALE DETAILS

**90 specially selected merino and poll
merino rams to be sold by
Helmsman Auction**

Inspection: 11am

Sale: 1pm

2.5% rebate to outside agents attending on the day.

Please enjoy lunch and refreshments with us.

FLOCK STATUS

- All rams are March shorn, fleece weighed and tagged
- All rams are September AWTA tested and listed in the Sheepgenetics database. ASBVs are available for most, but not all, rams
- Gudair Vaccinated and Brucellosis Free Accredited
- Guaranteed. All rams are guaranteed as fit for purpose at the time of delivery. In the unlikely event that a ram fails in fertility or soundness within 12 months of sale a replacement ram of equivalent age and quality, or credit for the purchase price of the ram GST excl., will be offered on receipt of a vet certificate, at the discretion of Connemarran.
- **Please note. Where an ASBV for CFW has not been provided by Sheep Genetics, an FBV has been substituted. It is expressed as a percentage of the average fleece weight of the drop. E.g. A sheep with a CFW of 125% cut 25% more than the average of the drop.**

ABOUT CONNEWARRAN

The Connewarran Merino Stud was founded with 25 Bindawarra ewes purchased in 1992. We now join approximately 750 ewes annually through ET, AI and natural programs. Genetics are Bindawarra based, now using predominantly Connewarran sires with infusions of Bindawarra, Charinga, Wallaloo Park and Willandra.

The Stud is located in Western Victoria, receiving average annual rainfall of 24 inches, the majority of which falls during a cold winter. The location demands a robust, well conformed sheep. Stud selection emphasises this plus scale and the requirement for long, thick, well aligned, bright-white crimped wools.

Sire evaluation trials have been entered annually for nearly a decade. This benchmarks stud performance and provides independent evidence to clients regarding the quality of our sheep, which have featured regularly in the top 3 or better of trial indexes.

HOW THE HELMSMAN SELLING SYSTEM WORKS

1. On arrival intending purchasers need to register at the bid table and receive a buyer number
2. All animals are displayed for inspection prior to, and during the sale
3. When the sale commences, all animals are on the market simultaneously. You may bid on any animal regardless of lot number, by filling in a bid card and handing it to an agent or 'runner'
4. You may open bidding at the reserve price indicated for each animal and contest bids in multiples of no less than \$200, or as directed by the auctioneer
5. Bids are recorded, with the buyer's number, on a large board adjacent to the animals. You can bid on any number of animals at once, and see at a glance whether your bid still stands or has been over-bid
6. There is no pressure to commit yourself to another bid. If your 'first choice' animal goes beyond your limit you can still bid on any other animal in the sale
7. The sale will remain open for a minimum of 30 minutes. A bid registered in the last 2 minutes will result in a 2 minute extension of selling time. Any further bids trigger the same process until a full 2 minutes 'no bid' period concludes the sale
8. **A bid once submitted and recorded cannot be retracted**
